- NVIDIA > Products > 3D Vision Discover > [Setup your Driver](#)

## Setup your Driver

## Setup your GeForce Driver

1. Make sure you have installed v186.18 or higher [GeForce driver](#) for Windows 7 or Windows Vista. You can check which driver version is installed from the [NVIDIA System Scan](#).

2. Proceed to the Start Menu > NVIDIA Corporation > 3D Vision and select "Enable 3D VISION Driver"

System Requirements

- 3D Games
- 3D Movies
- FAQ

GET STARTED

- Get Glasses
- Check your PC
- [Setup your Driver](#)

ADDITIONAL INFO

- GeForce GPUs
- Overview

- 2. Browse to the Start menu > NVIDIA Corporation > 3D Vision and select "Enable 3D Vision Discover".
- 3. Follow the steps in the 3D Vision Setup Wizard. Select 3D Vision Discover mode on the right. Complete the rest of the setup wizard to finish off setup.
- 4. You can now preview 3D screenshots on the hottest games by checking the box to "Launch a slideshow of 3D game images upon finishing the wizard" and clicking Finish. To quit the slideshow, press any key.
- 5. You are ready to start immersive stereoscopic 3D gaming! Please visit the [3D Vision Game Support page](#) to see which games are supported.

NVIDIA 3D Vision Hot Keys

Toggle 3D Vision Discover On/Off	CTRL-T
Adjusting 3D Depth	CTRL F4 to increase 3D depth CTRL F3 to decrease 3D depth
Toggle the NVIDIA In-game compatibility settings message	CTRL-ALT-Insert
